

ABSTRACT OF THE DISCLOSURE

[Elected Figure] FIG. 3

5       An information recording medium includes a first  
area (DA2) for storing picture data for forming a  
plurality of pictures, a second area (DA21) which is  
included in the first area and stores control data of  
the picture data, and a third area (INFO1) which is  
included in the second area and stores specifying data  
for specifying the storage position of representative  
10      picture data for forming a representative picture in  
the plurality of pictures.
